

Pre-Pay Program

The Vandalia Butler City Schools offer an online payment option called SPS EZpay. You may use your credit card or debit card to easily add money to your child's account at any time. There is no fee for this service, and please note that the credit information is never stored. You will need to enter your card number each time you add funds. We encourage pre-payment through the EZ-pay on-line program which can be accessed through the school district web site at www.vbcasd.com and click on the **SPS EZpay** logo. You will need your child's student ID number to register. If you do not know your students ID number it is located on the emergency medical form that is enclosed in this mailing..

Low balance e-mail reminders as well as meal purchase history are features available through the SPS EZpay program. These items will not be sent home from school. You do not have to use the SPS EZpay prepayment system to receive these services, but you must register your student at the SPS EZpay site.

Please call the food service office, 415-6421, if you have any questions.
